PRESIDENT : I had promised yesterday, when admitting the adjournment motion, to announce to the House the date on which it is going to be taken up for discussion. As the House is already aware, two motions have already been fixed for today and tomorrow. The earliest day to which the particular motion could be fixed for discussion is Thursday. And it is fixed accordingly. It would be taken up at 3.30 P. M. on Thursday.

GENERAL DISCUSSION OF THE BUDGET—(*contd.*)

MR. E. V. KRISHNA PILLAI (*Pattanamtitta*) : Sir, I am glad that the Budget presented to the House and the Financial Secretary's speech show the influence of certain very wholesome ideas of civilised administration. A casual reference to the criticisms made in the past by non-officials, in regard to Budgets presented to legislatures from time to time, would show that the chief complaints have been that they were all as dry as the statements of accounts of an unenterprising and unimaginative businessman and that they were all lacking in any stroke of originality or statesmanship. It is my view, Sir, that the Budget now before the House surpasses the expectations of many who have been eager to see something more original and more useful than those in the past and contains certain principles highly beneficial to the State. In regard to the enunciation of the new policy about the allotment of capital expenditure as specified in para 8 of the Financial Secretary's speech, it can be taken as a sort of introduction to the various proposals enumerated thereafter. The establishment of a Board of Agriculture, the introduction of technological studies in schools, the supply of protected water to certain major municipal towns in the State and the institution of certain very important commercial concerns are all measures that the Government propose to adopt during the coming year. These are all steps with rather far-reaching results;
